

Les polymères : matériaux de notre vie quotidienne

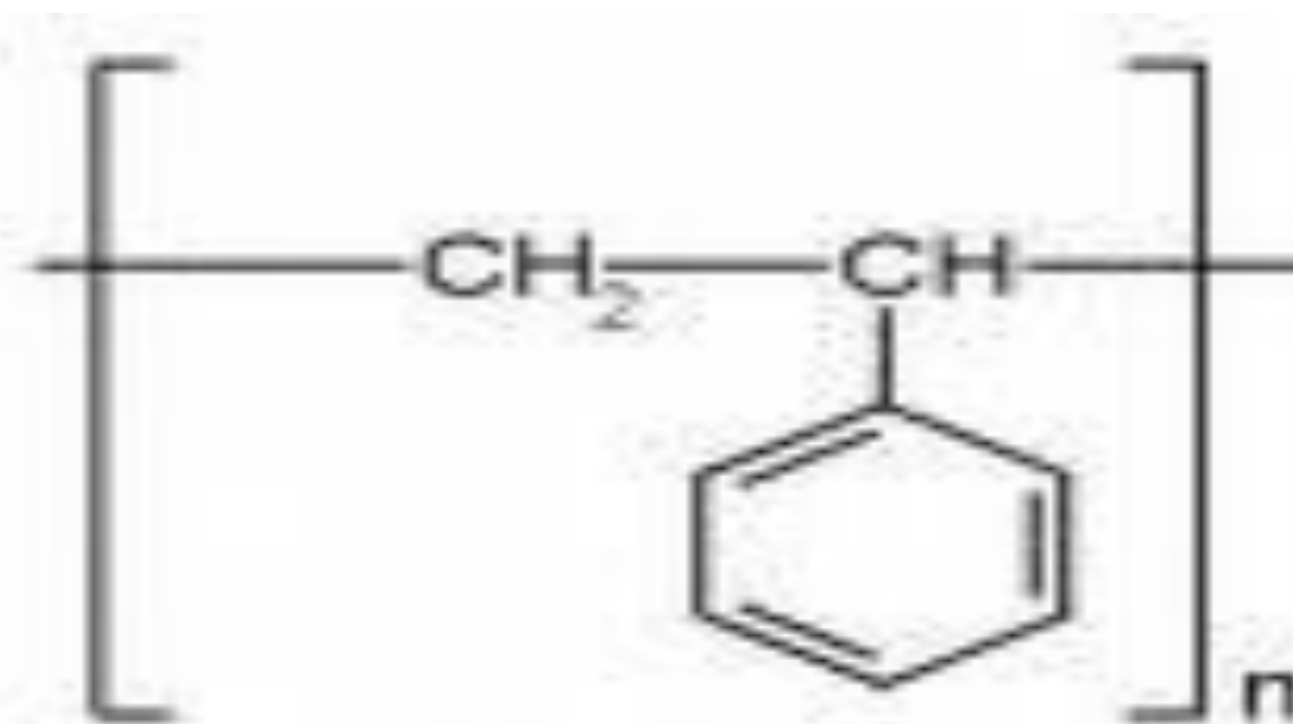

Nitelet Antoine, Stevens Arnaud, Vandermersch Jeremy
Laboratoire de Chimie des polymères

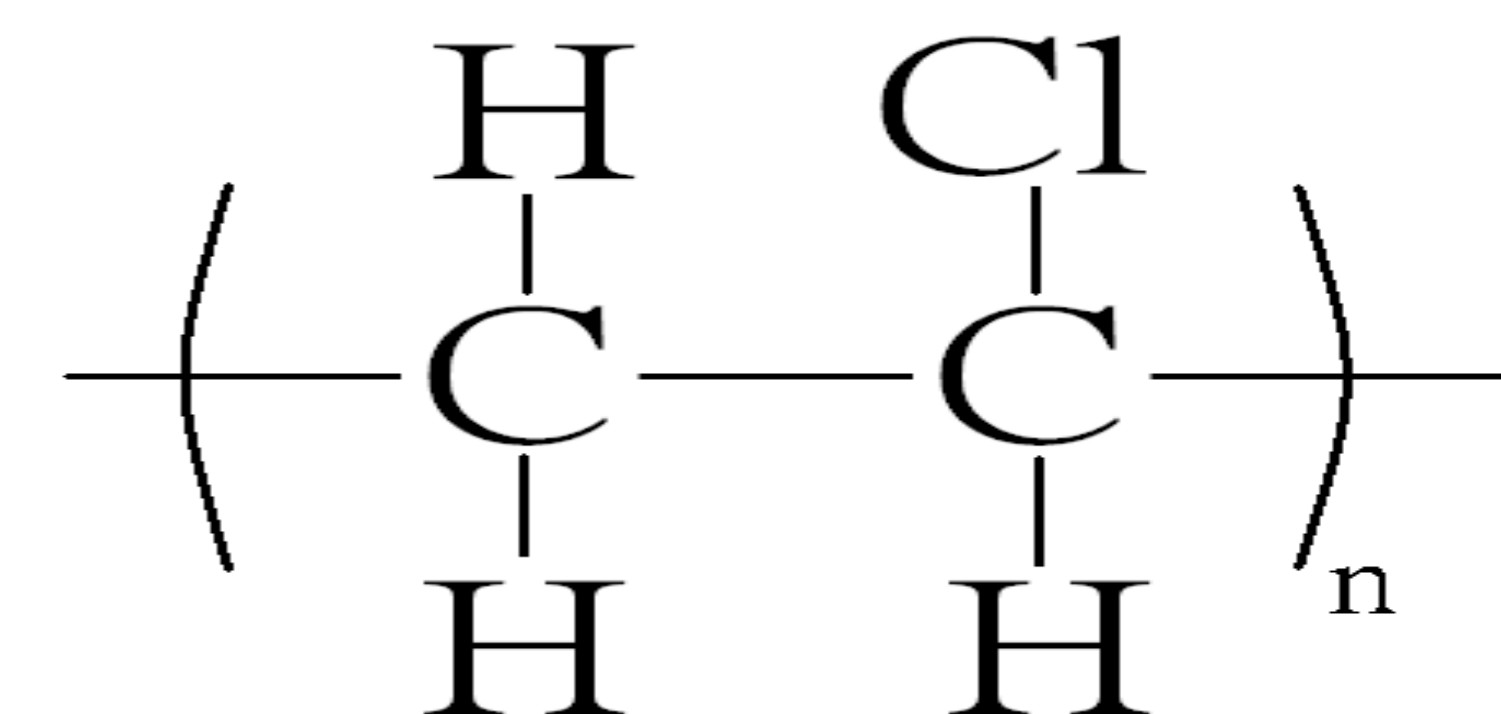

Cellules photovoltaïques (polynaphtalate d'éthylène)

Jouets (Polystyrène)

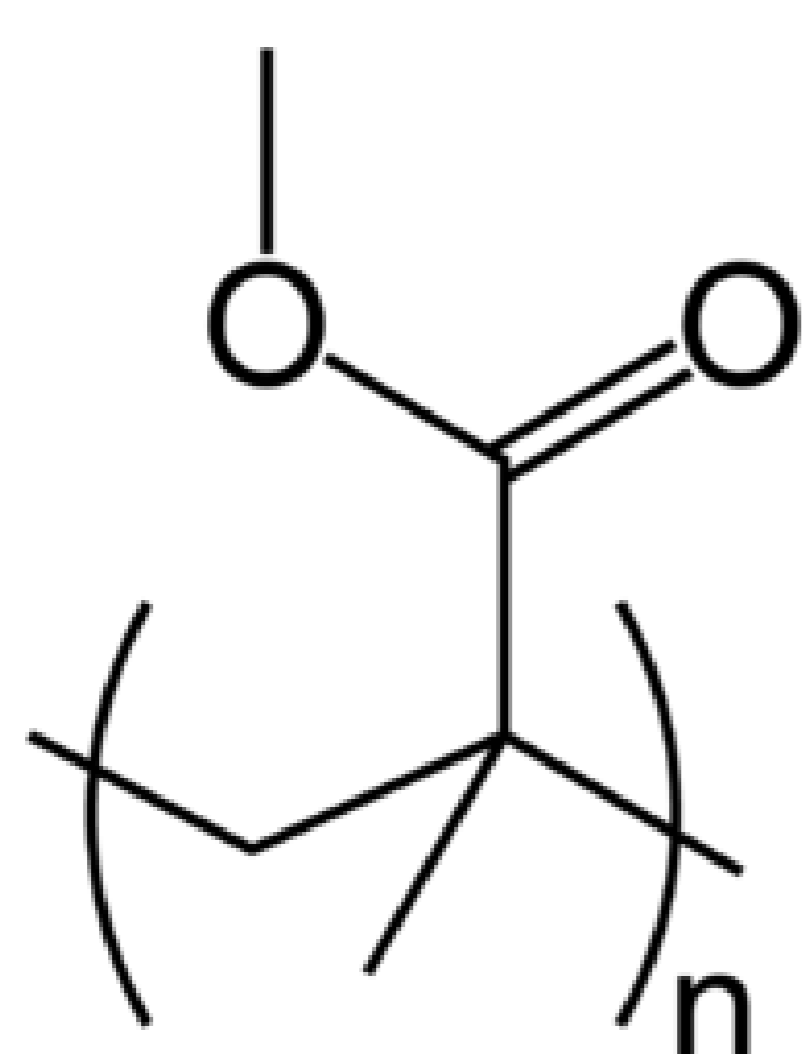

Matériaux de construction (polychlorure de vinyle)

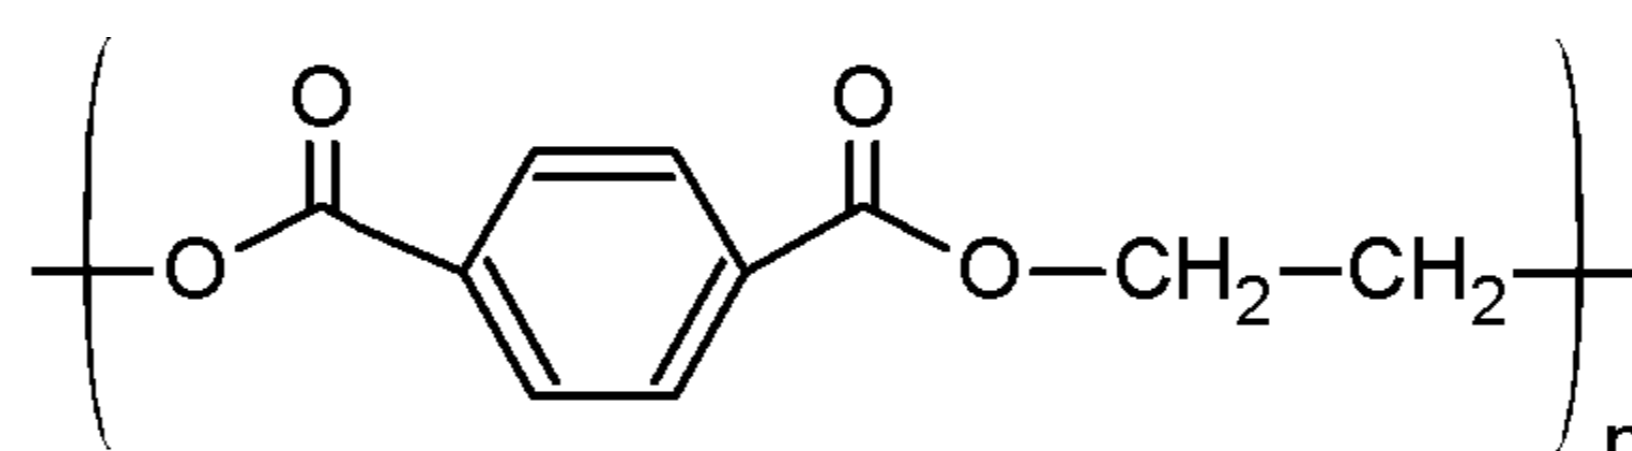

Les polymères

Médicale (polyméthylmétacrylate)

Emballage (Polyéthylène téréphtalate)

Sport/ Textile (Polyuréthane)
